

Uniroyal® SmartWay® Verified Commercial Truck Tires

Uniroyal® Commercial Truck Tires offers four SmartWay® verified tires (LS24, LD10, LT40 & RS20). SmartWay verified means that the Environmental Protection Agency has determined that these tire models can reduce NOx (nitrogen dioxide) emissions and fuel use by 3% or more, relative to the best selling new tires for line haul/highway class 8 tractor trailers.

With Uniroyal SmartWay verified tires, you'll experience lower emissions, greater fuel savings and also meet the regulations and carrier certifications that today's operations demand. Plus, you can combine our tires with lower-weight aluminum wheels to improve your fuel savings even more.

UNIROYAL® LS24™

The Uniroyal® LS24™ gives you what you want in a long haul steer/all-position tire.

- A LONG-LASTING, SmartWay® VERIFIED TIRE
