Fuel-efficient, all-position radial designed for long life steer axle service in line haul applications.
MICHELIN® XZA2® ENERGY TIRE

Fuel-efficient¹, all-position radial designed for long life steer axle service in line haul applications.¹

Unique intermediate rib design helps combat the onset of irregular wear in highway service.

Exceptional handling and responsiveness through optimized shoulder design.

Traction and lateral control offered by miniature sipes and variable groove angles.

The 295/60R22.5² below is an ultra-low profile and a full 4” shorter than the 275/80R22.5 with over 1,100 lbs of additional carrying capacity in single fitment.

Note: Wheel listed first is the measuring wheel.

¹ Based on industry standard rolling resistance testing of comparable tires or retreads. Actual results may vary, and may be impacted by many factors, to include road conditions, weather and environment, driver performance, etc.

² 295/60R22.5 tread design.

³ For further instructions on proper usage of the 295/60R22.5, consult Michelin.

⁴ “No bus shall be operated with regrooved, recapped or retreaded tires on the front wheels.” US Code of Federal Regulations: Title 49, Transportation; Part 393.75.

* Exceeding the lawful speed limit is neither recommended nor endorsed.

‡ Overall width will change 0.1 in. (2.5 mm) for each 1/4-in. change in wheel width. Minimum dual spacing should be adjusted accordingly.

◊ Note: Wheel listed first is the measuring wheel.
